

Is delighted to announce the deployment of our Delta players and service at

November 19, 2007 Pacific Palisades CA. RadioWeb will be deploying our state of the art internet radio players and service at one of the Philadelphia Region's most popular getaway retreats – The River Line Inn & Spa in historic Riverton New Jersey. The Inn was built in 1875 and was once the home of Mary VanMeter Grice, one of the founding members of the New Jersey State Congress of Mothers, which later became known as the Parent Teachers Association, or PTA. She was also active locally, founding the Historic Porch Club women's association in Riverton, New Jersey, which is still flourishing today.

The town of Riverton, New Jersey was built around 1850 as a resort for wealthy Main Line Philadelphians to spend their summer months along the Delaware River. The Yacht Club and pier remain as one of the country's oldest active yacht clubs, where, in summer, you can stroll along the banks of the river and watch the sailboats racing on the Delaware. Riverton Borough is on the National Historic Register and stands today as a true example of early country living in the 19th Century.

The home has much more history to explore. The house itself is situated right across the street from the new RiverLINE light rail train station, where you can hop on the train and be into downtown Philadelphia in just 22 minutes. Or, be more ambitious and ride North to Trenton New Jersey where you can change to NJ Transit and ride up to New York City for the day.

Now, this unique and charming resort will be offering guest's internet audio entertainment from over 10,000 locations around the world with deployment of RadioWeb Delta players replacing traditional and not altogether useful, am/fm clock radio's in every one of their amazing suites! Imagine waking up to the sounds of new age audio from Japan, or tuning into the same news station you do when at home while enjoying coffee in a place far from the grind of the everyday.

Whether you simply want to stay in touch, enjoy audio only available in largely commercial free streams from around the planet or explore what is being said, played and heard all over the world – The River Line Inn & Spa has now added a fascinating dimension to the guests experience.
